Yujia Shi

PERSONAL INFORMATION

- Role: Master of Artificial Intelligence
- Organization: The University of Texas at Arlington
- Email: yujia.shi@mavs.uta.edu
- Github: https://github.com/sssshi
- Linkedin:https://www.linkedin.com/in/yujia-shi-2906801a1/
- Homepage:https://compassionate-wilson-8412d5.netlify.com/
- Skills: C、C++、Java、Python、HTML、CSS、JavaScript
- Interests: Artificial Intelligence、Data Mining

EDUCATION

- M.Eng. in Artificial Intelligence, 2019-Present
        The University of Texas at Arlington
- M.Eng in Computer Science, 2018-Present
        Beijing University of Posts and Telecommunications
- BSc in Network Engineering, 2014-2018
        Beijing University of Posts and Telecommunications

PROJECTS

- **Developing a News app only for women**
  The University of Texas at Arlington   Sep. 2019 - Dec 2019
        Using Java to code a News app only for women and the data is collected from API.
- **Design and implementation of fault case classification method for power grid equipment based on deep learning**
  Beijing University of Posts and Telecommunications   Jan 2018 - Jun 2018
        Designing CNN and LSTM using Tensorflow to classify equipment defects using the real data collected by human

AWARD

- **Third-class scholarship in junior year**
  Beijing University of Posts and Telecommunications   Sep 2016 - Jul 2017
- **Third-class scholarship in sophomore year**
  Beijing University of Posts and Telecommunications   Sep 2015 - Jul 2016
- **Second-class scholarship in freshman year**
  Beijing University of Posts and Telecommunications   Sep 2014 - Jul 2015
- **Merit student in freshman year**
  Beijing University of Posts and Telecommunications   Sep 2014 - Jul 2015
